

Description

The 180L Outdoor Ecopoint for public spaces features 3 compartments and is the ideal solution to promote recycling in streets, gardens, schools, and urban areas.

- This outdoor recycling container is designed with a robust galvanized steel structure, ensuring high durability and resistance to adverse weather conditions, including rain, sun, and UV exposure.
- With three waste separation streams, the outdoor ecopoint allows for efficient selective collection of glass, paper, plastic, and other recyclable materials, facilitating organization and cleanliness in public spaces.
- Equipped with removable holders for 60L bags, it offers practicality in waste maintenance and replacement.
- The epoxy coating makes this urban ecopoint highly resistant to corrosion, moisture, and UV rays.
- The lockable system with key ensures security and prevents unauthorized access, making it ideal for high-traffic areas.
- Features:
 - Total capacity of 180L (3 x 60L)
 - Galvanized steel structure
 - 3 waste separation streams
 - Epoxy coating, weather and UV resistant
 - Locking system with included key
 - Dimensions: 101.8 x 32.6 x 109.4 cm (height x width x length)
 - Divider dimensions: 27 x 31 x 71 cm
 - Weight: 45 kg
- Optional:
 - Add waste stickers for a fully functional solution
 - 60L bag holders
- Cleaning instructions: Clean the epoxy surface with a soft cloth or brush and a mild soap solution. Avoid harsh chemicals to preserve the durability of the outdoor ecopoint.

Invest in the ecopoint for public spaces and contribute to a cleaner, more sustainable, and organized city!
