

## Description

---

Enhance your guests' experience with this interior socket featuring an integrated USB charger for hotel safes.

- A practical and secure solution that allows you to charge mobile phones, tablets, or laptops without removing the devices from the safe.
- Ideal for hotels that value comfort, security, and technology, this socket is compatible with any device with a USB port.
- Available in a version with two USB ports, ensuring greater convenience for the user.
- The installation of the socket does not interfere with the safe's operation, which remains battery-powered.
