

Description

Towel shelf with lower bar in AISI 304 stainless steel, ideal for hotel bathrooms, accommodations, and public spaces.

- With a brushed finish, this structure offers a durable and resistant solution for towel organization, combining functional design with a modern aesthetic.
- The integrated lower bar allows towels to be hung, optimizing available space.
- Manufactured in AISI 304 stainless steel, known for its high resistance to corrosion, it is an excellent choice for humid and high-traffic environments.
- The installation is concealed, ensuring a clean and elegant appearance. Screws included.
- Dimensions: 10.27 x 60 x 20.3 cm (height x length x width)
- Also available: brushed gold finish, bright finish, and black finish.

Choose the AISI 304 stainless steel towel shelf with bar. Functionality, durability, and style for professional environments.
