

Description

This regular size diaper bin is a practical, hygienic, and economical solution for managing used diapers in spaces such as tourist accommodations, nurseries, hotels, and daycare centers.

- **With a capacity for approximately 30 diapers, it ensures effective control of odors and bacteria.**
- The three airtight seal system **prevents the release of bad odors and contaminants**, keeping the environment clean and fresh.
- The bin is compatible with standard garbage bags, requiring no special refills or additional accessories, which reduces maintenance costs.
- One-handed use makes daily tasks easier in environments with frequent guest or user turnover.
- [Available in other sizes](#): medium (approximately 50 diapers) and large (approximately 75 diapers), adapting to the specific needs of each space. Contact us.
- Main features:
 - Regular size diaper bin;
 - Capacity: about 30 diapers;
