

Description

The stainless steel waste bin with two openings is a practical and elegant solution for waste management in hotels, restaurants, shopping centers, and corporate spaces.

- With a highly durable stainless steel structure and a black gold finish, this bin combines modern design with resistance to intensive use.
- The two top openings allow for simple and organized waste separation, encouraging recycling and cleanliness in professional environments.
- It includes a galvanized inner bucket that makes maintenance, cleaning, and bag replacement easy.
- With dimensions of 50 x 25 x 80 cm (length x width x height), it easily fits into reception areas, corridors, and common areas with high foot traffic.
- Key features:
 - Stainless steel structure with black gold finish;
 - Two top openings for waste separation;
 - Removable galvanized inner bucket;
 - Dimensions: 50 x 25 x 80 cm (length x width x height);
 - Inner bucket (x2): 20 x 20 x 48 cm (length x width x height);
 - Capacity: approximately 2 x 20 L;
 - Robust, modern, and functional design;
 - Ideal for hotels, restaurants, offices, and public areas.
- **The standard version includes two identification vinyl labels of your choice (PAPER, PLASTIC, or GLASS) in Portuguese and English, without a colored background, offering a discreet and harmonious look.**

Another label model with a colored background is also available upon request. If not specified, the recycling station is shipped in the standard version.

This dual stainless steel waste bin is the perfect choice for those seeking durability, sophistication, and efficiency in waste management for professional spaces.
