

## Description

Efficiency and convenience for garment care in hotel rooms.

The Stockton Garment Steamer is the perfect solution to provide guests with a practical and quick way to keep their clothes wrinkle-free during their stay.

- With British design, a compact structure, and a non-stick stainless steel plate, it glides smoothly over fabrics, ensuring flawless results. The continuous steam output (20–25 g/min), combined with the trigger offering two intensity levels, allows you to adjust the performance to the needs of each garment.
- The removable 270 ml water tank provides enough autonomy for several uses, while the automatic shut-off function 1 minute after the tank runs empty increases safety.
- The 3 m cord offers greater freedom of movement, ideal for use in hotel rooms or guesthouses.
- With 1500 W of power, the Stockton Garment Steamer combines professional performance, ease of use, and a compact style that saves space, making it an essential piece of equipment to enhance the guest experience.
- Key features:
