

## Description

Power, safety, and comfort for ironing in hotel rooms.

The Sherwood 2000W steam iron was designed to meet the demands of the hospitality industry, combining British design, durability, and safety. Equipped with a non-stick stainless steel soleplate, it ensures fast heating, even heat distribution, and smooth gliding over any fabric.

- The self-cleaning function extends the appliance's lifespan, while the temperature control allows you to adjust the heat to different fabric types.
- The 3-way auto cut-off system provides extra peace of mind for guests and hotels, turning off the iron when left idle in horizontal or vertical positions.
- With steam and spray functions, a water-level indicator (horizontal and vertical), and a 330 ml tank, this iron offers excellent autonomy.
- The 3 m cord ensures freedom of movement, making it ideal for hotel rooms, tourist apartments, and guesthouses.
- Key features:
  - British design, developed for hotels;
  - Power: 2000 W;
  - Non-stick stainless steel soleplate;
  - Functions: steam, spray, and self-cleaning;
