

Description

The Canterbury 0.6L electric kettle is the practical and elegant choice for hotels looking to offer comfort and efficiency to their guests.

Available in black or brushed stainless steel, it combines a compact design with modern features that simplify everyday use.

- With a 0.6-litre capacity, push-button lid, integrated filter and concealed heating element, this kettle is easy to clean and ensures safe, long-lasting performance. The Strix thermal controller, a world reference in kettle technology, guarantees reliability and superior performance.
- The design is tailored for hospitality: 360° base for easy use by both left- and right-handed users, central LED indicator and 304 stainless steel.
- Key features:
 - Available in two versions: black or brushed stainless steel;
 - Capacity: 0.6L;
 - Easy-open lid with button;
 - 360° base, suitable for all users;
 - Concealed heating element;
 - Integrated filter;
 - Strix controller for safety and durability;
 - 304 stainless steel materials;
 - Compact design, saves space in the room;
 - 4-year electrical warranty;
 - British design, hotel specification.
- Ideal applications: hotel rooms, local accommodation, conference rooms, offices, tourist apartments and senior residences.

Get your Canterbury 0.6L Kettle now and provide your guests with more comfort and practicality during their stay.
