

Description

The Modular Recycling Bin for Hotels is the ideal solution to promote sustainability and efficient waste management in hospitality environments. With its elegant design and robust structure, it fits perfectly in lobbies, common areas, hallways and service zones.

Available with 1, 2, 3 or 4 compartments, it allows you to customize waste separation according to your hotel's needs. Each module can be identified with stickers sold separately, available with symbols for paper, plastic, glass or organic waste.

With a modern finish in neutral tones and discreet lines, the Modular Recycling Bin combines aesthetics and functionality, helping your hotel reinforce its eco-friendly image and comply with the sustainability practices required by the sector.

Invest in a professional recycling system and improve the environmental efficiency of your space.
