

Description

This spaghetti-type PVC mat, with 15 mm thickness and 1.20 m width, is the ideal solution for hotel environments that require cleanliness and safety.

Made from 100% moisture-resistant PVC and suitable for areas exposed to rain, it provides a reliable non-slip surface even in the most challenging conditions.

Available in black, it can also be ordered in other elegant options such as brown, green, grey, blue, and red, adapting to different hotel styles.

It is easy to clean: it can be washed with water or mild detergent, and a jet of water easily removes embedded dirt.

Sold per square metre in wide rolls of 1.22 m by up to 8 metres in length, this product can be cut without the need for additional finishing. All measurements have a tolerance of $\pm 5\%$.

Ideal for the hotel sector looking for functionality in a safe surface covering for its spaces.
