

Description

The Malta Hotel Safe was designed to adapt to all types of hospitality establishments. With a rotary knob and keypad, it is the ideal solution for hotels seeking to protect their guests' belongings. This model features an internal **capacity of 23 litres**, providing enough space to store personal items with complete peace of mind.

With **dimensions of 192 x 350 x 430 mm (height x depth x width)** and a weight of 9.5 kg, it combines functionality with ease of installation thanks to pre-drilled holes on the base and back.

Its opening system combines a rotary knob with a numeric keypad, allowing the user to set personalised codes between 3 to 6 digits, and an emergency code of up to 6 digits. A mechanical emergency key ensures safe access in exceptional situations.

Powered by four AA batteries (1.5 V), the safe requires no complex electrical connections while maintaining reliable autonomy.

Optional: rental with internal key and internal USB socket (minimum order of 20 units).

The smart combination of robust design and technology makes it perfect for hotel managers looking to provide effective security for their clients' valuables without compromising on operational ease.

With this strategic choice for your hotel or guest accommodation, you can raise the standard of service by ensuring proper protection for guests' most valuable items while simplifying internal administrative processes.
