

Description

Enhance the safety and comfort of your guests with the Dubai Digital Hotel Safe, a modern solution that combines functionality with sophisticated design. Featuring a sleek glossy methacrylate panel, this safe integrates seamlessly into any hotel environment, adding value to the decor without compromising discretion.

It measures **192 x 430 x 350 mm (height x width x depth)** and weighs 13.5 kg, ideal for securely storing guests' personal belongings.

The side-opening system allows guests to set personalized access codes between 4 and 6 digits for added convenience, along with a six-digit emergency code that ensures secure access in unforeseen situations.

Powered by four AA batteries and designed to be fixed with two Ø20 mm screws, it allows up to 500 events to be logged directly on the digital display, simplifying monitoring by the hotel team. The built-in audit function allows up to 500 events to be recorded directly on the digital display, streamlining management control.

Especially designed for hotel directors and purchasing managers who aim to raise their service standards, this unit can also be rented via dedicated software or remotely controlled using the optional CEU remote.

Offer your guests a premium experience by providing a secure, tech-savvy, and visually refined product that reinforces your hotel's commitment to service excellence.
