

Description

The foldable laundry cart 80x52 cm is the ideal solution for optimizing the organization and transport of laundry in hotel units. With a robust structure in white plastic-coated steel tube, it ensures durability and resistance even with intensive use in the housekeeping sector.

The practical design allows it to be **easily folded when not in use**, facilitating storage in small spaces.

Equipped with **four swivel wheels with a diameter of 9.5 cm**, it offers maximum mobility and maneuverability even in narrow corridors.

With **dimensions of 80 x 52 x 77 cm** (length x width x height), it perfectly adapts to environments that require efficiency without compromising available space.

This equipment is specially designed for directors and purchasing managers looking for quality combined with functionality in the daily management of their hotel's laundry.
