

Description

The Perla Wall-Mounted Safe is the ideal solution for securely and discreetly protecting documents, money, and small valuables at home.

Made with a 1.5 mm steel body and a reinforced 4 mm door, it offers superior resistance, while the two Ø20 mm side bolts enhance protection against forced entry attempts.

With an internal capacity of 17.5 liters and **dimensions of 250 x 350 x 250 mm** (height x width x depth), it easily fits into cabinets, shelves, or furniture. Includes an internal shelf to better organize contents.

The integrated **interior lighting** facilitates use in low-light environments, and the electronic system allows for programming codes between 3 and 6 digits, as well as a 6-digit emergency code for unforeseen situations.

Anchoring is simple thanks to the holes in the base and back. Weighing 9 kg and operating on four AA batteries (not included), it ensures prolonged autonomy without the need for electrical connection.

This Perla safe is specially designed for home use, offering a balanced combination of security, ease of use, and excellent value for money.
