

Description

The adhesive refill for insect catchers is an essential consumable to ensure the continuous effectiveness of insect control equipment in professional environments.

Each pack **includes 6 self-adhesive units**, supplied with a **protective film** that must be removed at the time of use. The adhesive is designed to capture insects in a hygienic and discreet way, keeping the equipment fully operational.

With **dimensions of 27.5 x 16 cm**, these refills are compatible with models [CB2912](#) and [CB2912LED](#), ensuring proper fit and easy replacement.

Ideal for hotels, restaurants, food service areas, professional kitchens and other spaces that require high hygiene standards.
