

Description

The Timeless Black 40L waste bin is the ideal solution for environments that require functionality combined with a discreet and modern design.

Manufactured from high-quality recycled polypropylene, it stands out for its durability and commitment to sustainability.

With a **capacity of 40 litres and dimensions of 709.4 x 352 x 242.9 mm (height x length x width)**, it offers sufficient space for continuous use in hotels, restaurants, offices, shopping centres and clinics, ensuring everyday practicality.
Available in white ([ALR33000](#)).

The removable lid features a special finish that conceals the waste bag, promoting a clean and organised appearance. In addition, it can be fixed to wall brackets (included) or directly with screws, easily adapting to different spaces and needs.

This bin combines robustness and elegance, facilitating efficient and stylish waste management.
