

Description

Discover the perfect combination of functionality and elegance with this luggage cart, ideal for hotels and resorts that value excellence in service and sophistication in every detail.

With a robust metal structure, the cart features a round-profile tube with a diameter of 4.5 cm, ensuring resistance and durability even in the most demanding environments. Available in several finishes: metallic (from steel to polished brass), or painted in Apir colours or any RAL shade. This model adapts perfectly to the design of your space.

The support shelf, coated in plastic and lined with special carpet, offers a safe surface for luggage, protected by a rubber edge resistant to impacts.

Personalization: to reinforce your hotel's identity, it is possible to customize the carpet with laser engraving of your hotel's logo or name.

Mobility is facilitated by four castors, two fixed and two swivel, providing agile and comfortable handling. With **dimensions of 182 x 60 x 97 cm (height x width x depth)**, and a weight of 32 kg, this luggage cart combines practicality, classic design and high performance to enhance your team's operation.
