

Description

This foldable stainless steel laundry cart is a practical and resistant solution for hotels, hospitals and other establishments that require reliable equipment for transporting laundry.

With an **approximate capacity of 200 liters**, it allows moving dirty or clean laundry efficiently, helping to optimize daily laundry operations. The simple and functional structure allows quick assembly in just a few minutes through a screwed fixing system.

It includes a removable khaki bag with CuboHotel logo, which facilitates cleaning and ensures the hygiene required for this type of professional use.

Equipped with four swivel wheels, it ensures good mobility and smooth handling, even in areas with limited space. When not in use, it can be easily folded, significantly reducing the occupied space thanks to its compact dimensions in closed position.

Dimensions open: 65 x 68 x 115 cm (length x width x height).

Dimensions closed: 65 x 23 x 122 cm (length x width x height).

Developed for demanding environments such as hotels, hospitals and professional laundries, this cart combines resistance, functionality and a discreet design, becoming essential support for efficient laundry management.
