

Description

This **8" (20 cm) fixed wheel** for luggage cart is the ideal solution for hotels and resorts that seek durability and functionality and a practical alternative for the maintenance of their transport carts.

Manufactured in high quality rubber, it provides smooth and silent movement, without leaving marks on the floor, preserving the appearance of surfaces. The resistant metal structure ensures firm and secure fixing to the cart, providing greater stability and resistance to frequent use.

Ideal as a replacement part, it allows quick repair of carts with damaged wheels, avoiding the need to replace the entire equipment and ensuring service continuity. **Wheels supplied without fixing screws.**

Designed for model [CB2792P](#), this wheel combines robustness and practicality, facilitating luggage transport with comfort and efficiency in professional environments.
