

## Description

Elevate the sophistication of your space and ensure impeccable organization with our gold queue management post. **Specifically designed for indoor environments** that value refinement, such as luxury hotels, resorts and prestigious shopping centers, this equipment is the ideal solution to guide visitor flow with elegance and maximum efficiency.

**Manufactured in high-resistance steel with an epoxy coating finish**, this queue management post ensures superior durability, maintaining its shine and integrity even in high-traffic areas. Rope not included.

With **dimensions of 91.5 x 33 x 33 cm (height x width x depth)**, the post offers exceptional stability, ensuring that space division is carried out safely and professionally.

If you are looking to combine functionality and aesthetics in a single product, this queue management post is the right investment to transform your customers' experience.

Its robust structure and classic gold design provide immediate visual authority, helping to maintain order in a subtle yet effective way. Ideal for those who demand the best in space management, this post is the preferred choice for managers who value detail and the comfort of their audience.
