

## Description

Wall fixing piece designed for connecting barrier ropes, ideal for delimiting areas and organizing flows in hotels, receptions, events and commercial spaces. A discreet and functional solution for rope-based separation systems.

Made of zinc alloy with a chrome finish, it offers good resistance to frequent use and easy integration into different environments. It allows simple wall installation, with multiple fixing options depending on the need.

- **Technical features:**

- Material: zinc alloy;
- Finish: chrome;
- Dimensions: 35 x 35 x 3.5 mm (width x height x depth);
- Weight: 27 g;
- Compatible with barrier ropes;
- Supplied with screw and wall plugs for fixing;
- Alternative fixing with double-sided tape or liquid nails.

Ensure a resistant and discreet solution for space organization with barrier rope.
