

Description

The EVO-JET hand dryer was developed to ensure fast drying, hygiene and efficiency in high-traffic bathrooms. With automatic activation by infrared sensor, it provides a touch-free experience, reducing the spread of bacteria and improving hygiene standards.

The ABS structure with gloss white finish ensures resistance to daily use and easy maintenance, making it suitable for hotels, shopping centers, offices and other public spaces. The high-speed motor allows efficient drying in just a few seconds, while the powerful airflow contributes to improved performance.

Equipped with a removable HEPA filter, it helps retain particles and contaminants, ensuring cleaner air during use. The removable water tank simplifies cleaning and maintenance, preventing residue accumulation inside the unit.

The robust design without sharp edges enhances safety, making it suitable for high-turnover environments. Wall installation helps optimize space and keep the area organized.

- **Technical features:**

- Material: ABS and AISI 304 stainless steel
- Finish: gloss white
- Removable HEPA filter
- Water tank capacity: 450 ml
- Dimensions: 66.5 x 29.7 x 19.6 cm (height x width x depth)
- Drying time: 7 to 9 seconds

A reliable and efficient solution to improve hygiene and comfort in professional sanitary facilities.
