

Description

The FUGA EVO hand dryer with brushed bronze PVD finish combines efficiency, durability and contemporary aesthetics, making it ideal for hospitality projects and sophisticated sanitary spaces.

The AISI 304 stainless steel structure provides high resistance to corrosion and intensive use. Automatic activation through electronic sensor allows touch-free operation, reinforcing hygiene standards in professional environments.

Equipped with a replaceable HEPA H13 filter and high-speed motor, it ensures fast drying and consistent performance. The compact anti-vandalism design makes it suitable for bathrooms with high frequency of use.

- **Technical features:**

- Material: AISI 304 stainless steel;
- Finish: brushed bronze PVD;
- Power: 800 W;
- Air speed: 305 km/h;
