

Description

The FUGA EVO hand dryer with glossy gold PVD finish was developed for environments looking to combine high performance with a distinctive and elegant appearance.

Made of AISI 304 stainless steel, it includes an automatic infrared sensor and HEPA H13 filter, helping reduce particles and contaminants during use. The high-speed airflow allows efficient drying in just a few seconds, making it suitable for bathrooms in hotels, restaurants, stores and premium spaces.

The anti-vandalism structure and robust construction ensure long durability even in high-traffic locations. The glossy finish adds a sophisticated touch to the bathroom décor.

- **Technical features:**

- Material: AISI 304 stainless steel;
- Finish: glossy gold PVD;
- Total power: 800 W;
- Motor speed: 35,000 rpm;
- Air speed: 305 km/h;
