

Description

The 135° angled grab bar in brushed stainless steel was developed to improve safety and accessibility in adapted bathrooms in hotels, hospitals, clinics and nursing homes.

Made of AISI 304 stainless steel, it offers high resistance to corrosion and excellent durability in humid and high-use environments. The angled design with 2 fixing points provides additional support near toilets, sinks, shower areas and bathtubs.

- **Main features:**

- 135° angled grab bar;
- Made of AISI 304 stainless steel;
- Brushed stainless steel finish;
- Structure with 2 fixing points;
- Dimensions: 46.9 x 19.4 x 8 cm (width x height x depth);
- Tube with Ø32 mm;
- Suitable for accessible and adapted bathrooms;
- Includes fixing screws.

Improve the safety and functionality of your facilities with a resistant and professional solution.
