

## Description

The folding grab bar in AISI 304 stainless steel was developed to improve safety and accessibility in adapted bathrooms, making it suitable for hotels, hospitals, nursing homes and public sanitary facilities.

The folding system helps optimize space when the bar is not in use, making it a functional solution for accessible bathrooms. Made of AISI 304 stainless steel, it offers high resistance to corrosion and durability in humid and high-use environments.

- **Main features:**

- Folding grab bar;
- Made of AISI 304 stainless steel;
- Tube diameter: 32 mm;
- Length: 77 cm;
- Suitable for adapted and accessible bathrooms.

Ensure greater safety and functionality in your facilities with a resistant and professional solution.
